

NEWSLETTER JUNE 2017 – Ceramic Membrane Discs

Ceramic Membrane Discs – the BREAKTHROUGH in 2017

KERAFOL® is one of the leading manufacturers of **Ceramic Membrane Discs** and has a long term experience in the **Dynamic Crossflow Filtration**. **KERAFOL®** stands for close contact to customers and can assist you by the development of filtration plants, to get you a customized and individual solution.

We are very proud to present you a new ceramic membrane disc with significant optimizations, concerning the

- Flux
- Strength
- Life time

The Dynamic Crossflow Filtration enables you to achieve a significant added value.

The latest environmental legislation (e.g. in Asia), concerning sewage disposal, has created new applications, niches and consequently big market opportunities for the **Dynamic Crossflow Filtration**, the **most efficient technology**. **Ceramic** is the filtration material with the **highest life time**, the **greatest strength** and the ability to be also used at a **high level of solid contents**. Test our new ceramic membranes within a **test filtration**. **KERAFOL®** offers you different **test filtration** plants.

Please test our new membrane within your application

- Expand your span of applications
- Learn more about the advantages of the Dynamic Crossflow Filtration and the new Ceramic Membranes of KERAFOL®
- Start your project with a **test filtration** by the help of KERAFOL®
- Contact us

Visit our booth at the following fairs:

SIEME drinktec
Hall C
Booth 435
11-15.09.2017
Munich - Germany

AQUATECH AMSTERDAM
AMSTERDAM • NL
31 OCT - 3 NOV
2017

Hall 1
Booth 01.200
